

Fire Inspector I

Course Description

This course covers basic inspection procedures. It is recognized and approved by the Office of the State Fire Marshal. It meets the requirements for conducting inspections in existing structures, as identified by the State Fire Marshal's requirements. This course meets the objectives of NFPA 1031, Professional Qualifications for Fire Inspector Level I.

The course will enable students to prepare reports on fire safety issues using the proper codes and standards; conduct research of the various codes to address deficiencies noted during a site visit; develop a checklist to complete fire safety inspections; and give a legal deposition given the findings of an inspection, plan review, or complaint.

Upon successful completion of this course, students will be recommended to take the Fire Inspector I certification examination offered by the Louisiana Firefighter and Emergency Responder Certification Program.

Certification Information

The Fire Inspector I certification examination is offered by the Firefighter and Emergency Responder Certification Program to the students who successfully complete the course. This is optional and will be given at the conclusion of the course.
